What is the Recycle City Activity?

The Recycle City activity is an interactive educational tool

designed to teach students about recycling, waste reduction, and environmental stewardship. Often presented as a digital simulation or classroom game, it allows participants to explore a virtual city where they can identify recyclable materials, make decisions about waste management, and learn the consequences of their choices on the environment. This hands-on approach makes complex environmental concepts accessible and engaging for learners of all ages. By simulating real-world scenarios, Recycle City encourages users to think critically about how individual and community actions impact sustainability.

Core Learning Objectives of Recycle City
